Puremedy Bio-Ceuticals
-Ancient remedies for modern people-

Medicinal Catalog

Over 150 years of healing naturally
The Medicinal Collection

Nature’s medicine cabinet
Puremedy’s Original Healing Salve is a unique, multi-purpose, natural medicine that originated with an Indigenous Medicine Man over 150 years ago. This sacred formula has been a long treasured family legacy and now has been proven to kill infections and the full spectrum of bad bacteria, including MRSA, Staph, Strep, E-Coli, and Candida. It is the base formula for each and every one of our products, with the exception of a few.

This salve has 3 main actions:
1. In an in-vitro time kill analysis, it has been proven to be anti-microbial
2. Draws out toxins and foreign matter from skin and wounds
3. In a human study performed at NCNM in Oregon, it was proven to increase blood circulation and oxygen to the skin and tissue at least 4 layers deep.

Pure, effective, and truly unique.

- Doctor recommended
- Fast results
- Anti-microbial, anti-inflammatory
- 100% natural, food grade ingredients that are organic and wild harvested.
- Safe for internal use.
- Entirely free of synthetic preservatives, petrochemicals, parabens, phthalates, artificial colors, scents, yeast, soy, gluten or GMO’s.
- Cruelty free

(Reporting was done after 30 minutes, 1 hour, 2 hours, and 4 hours. The statistical expression of no microbial recovery for the plate count method is < 10)

**CONCLUSION:** 99.99 percent of the inoculated microorganisms were killed within 4 hours of coming in contact with the product.

*Approved By:*

---

**Ingredients:**
- Proprietary blend of Pine, Fir, sap, and resin
- Elder Flower
- Calendula
- Echinacea
- Extra Virgin Olive Oil
- Beeswax

*Healed after 4 days*  
*New, healthy skin in 8 weeks*
The Eczema and Fungus Relief continues to be one of our top selling products. It actively combats the symptoms of eczema psoriasis, such as, itching, redness, dry/irritated skin, flaky patches. It calms itchy skin and repairs damaged flaky tissue fast.

What is the difference between eczema and psoriasis?
*Eczema* can be caused by certain irritants such as certain food, dust, dyes, fragrance, and other allergy causing elements. This produces flaky, inflamed skin that is typically very itchy.

*Psoriasis* is typically caused by leaky gut syndrome. Toxins are passed into the blood, and the only way for the body to detoxify is through the skin. When those toxins are pushed out through the skin, the cells reproduce 10x as fast as they normally do which causes red, flaky patches on the surface.

Diet and stress levels should always be accessed to alleviate flare ups.

Why our salve works:

- The three pine extracts used are anti-microbial, anti-viral, alleviate pain, and increase blood circulation.
- It’s a drawing salve. The drawing action assists in detoxifying skin and tissue.
- Calendula and Echinacea are extremely anti inflammatory
- Olive oil and beeswax help nourish the skin and lock in moisture
- Vitamin E is rich in antioxidants used to regenerate and repair skin

Extra Drawing Black Salve

Homeopathic Salve

Puremedy’s Extra Drawing Black Salve is a traditional herbal salve that has been crafted with the extra strength drawing power of bloodroot for the most stubborn skin conditions. Herbs, plants, roots, and tree extracts like those found in this product have been used in indigenous cultures for thousands of years for various ailments such as treatment for skin infections and ulcers. As a note, this black salve does not include zinc chloride.

This is a safe, but powerful product!

Medicinal uses of bloodroot in Native American History

Skin diseases
Warts
Tumors
Blood purification
Expectorant
Gingivitis
Aid for nausea/vomiting

Ingredients:
Proprietary blend of Pine Fir, sap, and resin
Elder Flower
Calendula
Echinacea
Bloodroot powder
Extra Virgin Olive Oil
Beeswax

“Your black drawing salve is a miracle worker. I first used it on a highly infected spider bite. It was recommended from my health food store but even they were skeptical as it looked horrible and they suggested I also go to urgent care. After only one day I started seeing improvement. It was unbelievable. Now I have also used it on wasp stings that are very toxic for me. Once again the salve heals it quickly. Thank you, just wish I would have found it earlier, I am telling everyone I know.” -Nancy

A customer stepped on a toothpick that broke off in her foot. She applied Puremedy’s Extra Drawing Black Salve to the wound, covered it with a band aid, and overnight, the broken half of the toothpick was sticking out of her foot.
Puremedy's Fungus Relief is an all natural alternative to harsh over the counter creams and laser treatments for skin and nail fungus. This blend of ingredients is highly anti-microbial and anti-fungal. It works fast by trapping bacteria and fungus in a no air, no moisture environment, so the microorganisms cannot live.

Pure, quick, and powerful.

(Attestation Information)
Many hormone replacements put women at risk for other serious or fatal health risks with offering little to no results. The risks that accompany HRT include breast cancer, stroke, heart disease, blood clots, and endless side effects. Puremedy’s Feminine Moisturizer is safe, effective, and completely natural.

*Fights against bad bacteria and yeast infections while protecting a healthy vaginal flora.

**Ingredients:**
- Proprietary blend of Pine, Fir, sap, and resin
- Elder Flower
- Calendula
- Echinacea
- Extra Virgin Olive Oil
- Beeswax

“After three unsuccessful vaginal mesh surgeries and estrogen boosters, my hot flashes and pain became unbearable. I was at my wits end! It had been two years since I was able to enjoy intimacy with my husband. Sex was too painful. My doctor suggested that I undergo another surgery that would cost around $4,000.00 with no promise of results. Searching for an answer, I talked to the supplement manager at my local health food store, and she told me to try Puremedy’s Feminine Moisturizer. After two months of using it, I no longer have any discomfort and my husband and I can be intimate again. This product has honestly changed my life.” -Anonymous. Age 67
Cold Sore Relief
Homeopathic Salve

Puremedy’s Cold Sore Relief is a soothing, all natural alternative to generic over the counter ointments that are packed with harsh chemicals. Temporarily relieves symptoms such as swelling, sores, dry/itchy skin commonly associated with oral and genital herpetic outbreaks.

Naturally soothing. Heals cold sores fast.

- Prevents progression at the first sign of a herpetic outbreak.
- Heals fast.
- Increases blood circulation and oxygen to skin and tissue, speeding up the healing process.
- Soothes itching and irritation quickly.
- 100% food grade, organic, and wild harvested ingredients. Safe to ingest.
- Gentle enough to use on genital outbreaks.
- Made entirely without synthetic preservatives, petrochemicals, parabens, phthalates, artificial colors, yeast, soy, gluten, or GMO’s.
- Cruelty free
"My boyfriend applied the Cold Sore Relief as soon as he started to feel a tingle on his lip. The next morning, the cold sore looked as if it was a few days into a normal outbreak. The cold sore was completely gone by the 5th day. I’m shocked how fast it went away!"

The normal progression of a cold sore is between 7-10 days.
With Puremedy’s Cold Sore Relief, the healing process lasts between 3-7 days.

**Ingredients:**
- Proprietary blend of Pine, Fir, sap, and resin
- Elder Flower
- Calendula
- Echinacea
- Thuja
- Dragons Blood
- Lemon Balm
- Extra Virgin Olive Oil
- Beeswax
Puremedy’s First Aid Salve is a natural alternative to over the counter medicinal ointments that temporarily relieves symptoms associated with minor cuts, scrapes, superficial burns, and other first aid needs.

A mild, all natural alternative to antibacterial ointments.  
A must have for every first aid kit.

- Anti-microbial, anti-inflammatory
- Increase blood circulation and oxygen to the skin and to promote a quicker healing process, and the rejuvenation of strong, healthy tissue.
- 100% natural, food grade ingredients that are organic and wild harvested.
